

# PIPING CONSTRUCTION

## ADVANCED TECHNOLOGIES AND INNOVATIVE SOLUTIONS

Consolidated Fabrication & Constructors facilities maintain complete control of your projects by performing all work in house. Our state-of-the-art 50,000 sq. ft. fabrication facilities, housed on 10 acres with 80,000 sq. ft. lay down area, are fully equipped with two (2) 20-ton overhead cranes. Our multi-skilled shop supervisors and craftsmen possess the training and expertise required to support our field services division.
