Consolidated Fabrication and Constructors, Inc.
3851 Ellsworth Street
Gary, IN 46408

Colonial Pipeline Company believes the safety and health of our contractors is essential to the long-range success of our business; and only employs contractors that embrace our Safety Philosophy. Colonial knows that successful safety performance is best accomplished by working with our contractors as partners in safety. As such, we measure the safety performance of our contractors in the same manner as we measure that of our own employees.

It gives me great pleasure to inform you that Consolidated has been distinguished as one of Colonial's "Contractor Safety Champions." Please accept this letter as an expression of my gratitude to the management and employees of Consolidated for its safety performance in 2012. As a safety champion, Colonial recognizes your success in accident and incident prevention as compared to your peers.

Please share my gratitude and Colonial's recognition with all members of your organization; along with our encouragement to keep up the safe work. Thank you, Consolidated, for working safely every day at Colonial Pipeline Company.

Sincerely,

Tim Felt
President
